

- Easy mounting
- "Slim Line" type aluminum carrier body
- Magnetic tape integrated in profile
- Protection class IP67
- Resistant to humidity
- Stainless steel cover strip

The highly rugged, flexible plastic magnetic tape can be applied to a machine tool easily. With a special industrial adhesive layered strip, B5 or B2 Magnetic Tape can be attached to the overside of the profile system.

The magnetic material is magnetised in defined and even distances and works as a solid measure. The magnetic scale retains its firmness by means of a spring steel base.

Technical Specifications	
Operating temperature	-25 to +85°C
Pole pitch	5 mm, 2 mm
Accuracy Class	±40µm /m or ±20µm/m
Storage temperature	B5 (-40°C to +120°C B2)
Body Material	Anodized Aluminum
Protection Class	IP67
